

## Mathematical Key Terms for Problem Solving:

<b>Multiplication</b>		<b>Division</b>	
Times	volume	Shared	split
Multiples	twice	Half	shared equally
By	area	Divisor	average
Per	apiece	How many times	per
Factors	tripled	Group	part
Multiply	of	Dividend	ratio
Product	doubled	Remainder	cut
As much		Quotient	divided (evenly)
		Equal pieces	
<b>Addition</b>		<b>Subtraction</b>	
Plus	more	Decrease or decreased by	
Together	how many	Less (than)	lost
greater		Subtract	change
How much	and	Minus	left
Increase by	altogether	Difference	
Sum	raise	How many more	
Addend	combined	How much more	
In all	additional	How much less	
Add		Regroup	
total		reduce
